Kali Key Becomes Strategic Partner with Gun Owners of America, Gun Owners of California

Springfield, VA – Gun Owners of America (GOA) and Gun Owners of California (GOC) are pleased to announce a partnership with Kali Key LLC. This innovative and groundbreaking company has developed an elegantly simple solution to address the insanity of so-called “assault weapons” laws and allow people to keep their ARs legally.

Located in San Diego, CA, Kali Key invented a product that sets out to protect the AR-15 and AR-10 rifles. The Kali Key is a drop-in solution that, with the same ease of inserting a BCG, removes the AR from the definition of an “assault weapon.” This allows the firearm to retain all its features, including pistol grips, flash suppressors, and detachable standard capacity magazines, etc., which are currently prohibited by California’s Assault Weapons Control Act. Perhaps most notably, Kali Key uses its sales to support grassroots Second Amendment organizations. Kali Key sales have gone to fund *Miller v. Becerra* (the California “AW” ban scheduled for a full trial in January); *Duncan v. Becerra* (the California standard capacity magazine ban which was recently struck down in Federal Court); and several other pro-2A efforts.

“GOA and GOC are excited about having Kali Key as a Strategic Partner. This new partnership truly shows Kali Key’s strong commitment to defending the Second Amendment without compromise. Kali Key’s mission mirrors GOA and GOC’s objective - we want to put ourselves out of a job,” said Sam Paredes, Executive Director of GOC, and GOA board member. “Their innovative products have enabled those stuck behind enemy lines to continue to own and operate the most popular and effective rifle platform in the country,” Paredes continued. “And now, Kali Key’s support as a Strategic Partner bolsters GOA and GOC’s ability to fight back against gun control such as so-called ‘assault weapon’ bans.”

###

GOA and GOC stand in complete opposition to California’s Assault Weapons Control Act and are pushing for its repeal. GOA, GOC, and Kali Key share common goals as, together, they support grassroots organizations and pro-Second Amendment legal battles. Gun Owners of America, and its sister organization Gun Owners of California, are nonprofits dedicated to protecting the right to keep and bear arms without compromise.
